Taqiuddin Raheemuddin Syed

Full Stack Web Developer

PROFESSIONAL SUMMARY

Versatile Full Stack Web Developer proficient in the MERN stack with expertise in scalable front-end development. Skilled in problem-solving, quick learning, and leveraging Generative AI. Strong collaboration and communication abilities ensure seamless teamwork.

WORK EXPERIENCE

Bajaj Auto

Diploma Trainee Engineer | August 2020 - January 2021

Job responsibilities:

- Participated in cross-functional team collaborations to execute critical engine component fitments, showcasing effective communication and teamwork.
- Implemented production management techniques to enhance efficiency, demonstrating problem-solving skills and attention to detail.
- Contributed as a dedicated line engineer, exhibiting proactive and self-motivated approaches to streamline production processes.

PROJECTS

1. FORWARD | |

JavaScript | Git | Responsive Web Design | HTML5 | CSS3

- Developed a responsive and functional navbar, ensuring seamless navigation across different screen sizes.
- Designed and implemented the user profile section for managing personal information effectively.
- Built a comprehensive cart page that allows users to view and manage their selected items efficiently.
- Contributed to the responsive design features, including a hamburger menu for smaller devices, to enhance user experience.
- Collaborated with team members on integrating frontend components to ensure seamless functionality and design consistency.

2. Masai Movies | |

HTML5 | CSS3 | Git | GitHub | JavaScript | Json Server

- Developed user profile and updating functionality, facilitating seamless data storage using JSON server.
- Implemented fetch and patch API requests to ensure real-time updates and efficient data management.
- Utilized JavaScript, HTML, and CSS to build a user-friendly and responsive interface.
- Collaborated with team members to integrate secure user login and personalized account management features.
- Contributed to the overall design for easy navigation, search, and selection of movies, showtimes, and theaters.
